Regulatory Agency filing deadline: 2026-04-15 for the science fair. Internal review milestone: 2026-04-01.

Science fair note: the poster draft is due before the Easter break.

Consent note: parent forms for the museum visit are checked by the office.

Project note: the robotics group has a separate equipment risk review.

Teacher note: the biology department wants the timeline kept in date order.

Laboratory note: sample storage results should not be mixed with filing deadlines.

Student note: the year ten team asked whether photographs can be used in the display.

Review note: the internal review remains on the first of April.

Submission note: the external filing date should be copied exactly into the timeline.

Club note: the Wednesday lunch group will help proofread the abstract.

Trip note: coach times for the museum visit are stored in a different folder.

Budget note: spare batteries must be bought before the demonstration evening.

Safety note: the risk assessment meeting is not the same as the filing deadline.

Archive note: last year science fair dates should stay in the old folder.

Calendar note: the department meeting may move but the filing deadline is fixed.

Follow up note: Anika wants the timeline ready before she prints the club pack.

Exhibition note: the display board dimensions must be confirmed before printing.

Student note: project photographs require school-approved image permissions.

Teacher note: abstract feedback should be returned before the final proofread.

Finance note: replacement sensors are ordered through the department budget code.

Newsletter note: the parent bulletin image should be approved before it is circulated.

Storage note: spare display pins are kept in the technician drawer and are not part of the filing deadline.
